Subject: Label Amendment – Add product names and optional marketing statements
Product Name: Durachlor 1” Tablets
EPA Registration Number: 57787-12
Application Date: February 12, 2018
Decision Number: 538587

Dear Mr. Drudy:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

Page 2 of 2
EPA Reg. No. 57787-12
Decision No. 538587

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Wanda Henson by phone at (703) 308-6345, or via email at henson.wanda@epa.gov

Sincerely,

A handwritten signature in blue ink that reads "Wanda G. Fuller, for". The signature is written in a cursive style.

All text in brackets [brackets] is optional and may or may not be included on final label.

DURACHLOR 1” TABLETS

[A Concentrate for Continuous Chlorination]

KEEP OUT OF REACH OF CHILDREN

DANGER

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information call CHEMTREC at 1-800-424-9300.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

See additional precautions on [back] [side] panel.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS

(Containers less than 50 pounds)

This pesticide is toxic to fish and aquatic organisms.

(Containers greater than or equal to 50 pounds)

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

STRONG OXIDIZING AGENT.

Contact with water slowly liberates irritating and hazardous chlorine containing gases. Decomposes at temperatures above 464°F with liberation of harmful gases. When ignited, will burn with the evolution of chlorine and equally toxic gases. NEVER add water to product. Always add product to large quantities of water. Use clean, dry utensils. DO NOT add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic material, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible fire and explosion.

IN CASE OF FIRE OR SMOKE:

Call the fire department. Do not attempt to extinguish the fire without a self-contained breathing apparatus (SCBA). Do not let the fire burn. Flood with copious amounts of water. DO NOT use ABC or other dry chemical extinguishers since there is a potential for a violent reaction.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. [Durachlor 1" Tablets] [1" Tablets] [This Product] [ABN] [are] [is] stabilized slow dissolving tablets to provide continuous chlorination to control bacteria and algae.

MASTER LABEL

{Directions for ROUTINE CHLORINATION}

ROUTINE CHLORINATION

[DURACHLOR 1" TABLETS] [This product] [ABN] [are] [is] stabilized slow dissolving tablets to provide continuous chlorination to control bacteria and algae.

RECOMMENDED DOSAGE: For each 15,000 gal. of pool water, place 10 tablets in the skimmer basket. Allow 6 to 12 hrs. for chlorine residual to equalize. Initial treatment will last from 2 to 4 days depending on water temperature and flow rate through the skimmer. Chlorine residual should be maintained between 1.5 and 2.0 ppm as determined by a suitable test kit. If daily testing indicates the chlorine level to be low, increase the number of tablets in the skimmer basket. If daily testing indicates the chlorine level to be low, increase the number of tablets in the skimmer basket. If daily testing indicates the chlorine level to be higher than 2.0 ppm, reduce the number of tablets accordingly.

Once every two weeks a shock dose of 5 ppm chlorine should be made to prevent the development of resistant species of algae. [DURACHLOR 1" TABLETS] [This product] [ABN] [are] [is] not recommended for this purpose. [DURACHLOR 56 GRANULAR] [1" Tablets] [This product] [ABN] used in accordance with that product's directions will satisfy this requirement when used in conjunction with [Durachlor 1" Tablets] [1" Tablets] [This product] [ABN]. Keep pH of water between 7.2 and 7.6 as determined by a suitable test kit. Reentry into treated swimming pool is prohibited above levels of 3 ppm of chlorine.

{Optional Marketing Statement}

[There are three important steps to follow to maintain sparkling clean water in your pool:]

[Step 1 – Add [[an] EPA registered][sanitizer][disinfectant]] [DURACHLOR 1" TABLETS *{or}* *{specific related product*}*] *{or}* [this product] to control bacteria.]

[Step 2 – Add [[an] EPA approved] shock] *{or}* [specific related product*] to destroy contaminants.

[Step 3 – Add [[an] EPA approved] algaecide] *{or}* [specific related product*] to prevent algae before it starts.]

**Only specific EPA approved brand and product names may be displayed. For Example: Step 3 – Add ALGAE KIL 50*

[All three steps are vital to achieve sparkling clean water.]

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Keep this product dry in a tightly sealed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all material before discarding the container.

Pesticide Disposal: Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) promptly after emptying. Offer for recycling, if available or reconditioning if appropriate or
